WHO WE ARE

REALIZE is a movement started by the people and for the people. Our mission is to educate communities on the future of crypto currency with the integration of its use through the process of cooperative economics.

The inspiration for our movement comes directly from ancestors, and we will utilize our power to change the trajectory of our people. **REALIZE** is the **Real Life**, for

Zenit that was once promised to us, because of the hardships of our ancestors. We have witnessed overtime that the promise has not been kept. We are taking power within our own hands to recreate that promise, and to put the power in the hands of our people through cryptocurrency. **REALIZE** coin is about encompassing ALL communities and ALL businesses for a common goal.

THE TEAM

Here at **REALIZE**, we have an amazing team!

Cahyono
CEO

Sutandi Azhari M
CTO

What is REALIZE?

REALIZE is a cryptocurrency that was created to establish economic freedom for disenfranchised communities. It is our past, present, and future, immersed within a token. This token will serve the community through education, P2P circulative transactions, blockchain integration, and community driven projects.

What purpose does REALIZE serve?

With little to no resources provided, the **REALIZE** team understands that poverty continues to plague our communities. The resources that are provided help perpetuate a poverty mindset within the community; those same resources come with a cost.

The cost is division in our communities when, in reality, it should bring us together. By circulating a portion of all transaction fees, coin holders will be able to accumulate free **REALIZE** coins on a daily basis through Tokenomics. Tokenomics creates a windfall of free coins which will be redistributed to disenfranchised communities through our charity function(s).

Tokenomics

Tokenomics is the distribution of coins through P2P transactions. The foundation of Tokenomics is determined by supply and demand. A specific sale transaction is what determines the issuance of tokens. Those tokens are dispersed to our investors wallets, each time there is a “sale” of **REALIZE** coins.

Provided below is a breakdown of Tokenomics, how it impacts our investors and how it puts them in the position to receive free **REALIZE** coins for investing. Tokenomics is beneficial to both businesses and consumers, because it allows both parties to benefit from the redistribution of coins with every transaction.

With the global adoption of cryptocurrency rapidly increasing, we have the potential to generate millions of P2P transactions daily. This will create a consistent redistribution of **REALIZE** coins to all of our holders. By having both business and consumers invested in **REALIZE**, businesses will realize gains from multiple angles. Not only will they benefit from selling their product, they will also gain coins from the transaction fee of that sale. Even when they aren't making a sale, they are gaining coins every time another merchant makes a transaction with **REALIZE**. The ultimate benefit from that transaction is to benefit our charities!

REALIZE Initial Coin Distribution	REALIZE Features
2.5% Treasury	1% fee auto add to the liquidity pool to locked
2.5% Charity	forever when selling
5% Founders	1% fee auto distribute to all holders
30% Initial Burn	1% fee burn forever
10% Presale	1% fee auto add to charity
50% Public Sale	Supply 999,000,000 REALIZE

Treasury Wallet

Our treasury wallet is not a wallet for our personal gain. This wallet will be used for the greater good of moving the project forward. We will utilize our Treasury Wallet for financing future development projects and marketing.

24,975,000 REALIZE coins - Treasury Reserve - Platform Development, Marketing, Audits, Future Listings, Social Media Promos, Legal Fees, Business Fees.

Throughout the month of February 2022, we want to start pushing for community crowdfunding. Getting listed on major exchanges takes more than just volume and notoriety, it also comes with an associated cost.

We also want to continue our community marketing push that, so far, has been successful and fully funded by the community.
